

Let me tell you the story of how I started my family. A long time ago, I found a nice man that I love.

We made sure to use condoms for protection.

We got tested for sexually transmitted infections to be safe.

We wanted to wait to get pregnant.

A couple years later, after we saved money,
we decided together to have children.

We made sure that our baby and I stayed healthy during the pregnancy.

Someday I will teach my children how to be
safe, just like I am teaching you.
